WORK EXPERIENCE

Keller Williams Arizona Realty, Scottsdale, AZ — Sep 2024 – Present

REALTOR®

- Closed 8 transactions totaling ~$881K across land sales/rentals; manages full transaction lifecycle from lead generation through closing
- Built and deployed a regression-based CMA model using MLS data to determine fair market value, assess investment viability, and advise clients on pricing and deal structure
- Analyzes comparable sales, price-per-square-foot trends, and market absorption to advise buyer-clients on pricing, offer strategy, and investment viability
- Coordinates due diligence end-to-end across lenders, escrow officers, title companies, inspectors, and counterpart agents

By Rybicki Media, LLC, Scottsdale, AZ — Oct 2025 – Mar 2026

Founder & Principal

- Founded a real estate media company serving Scottsdale agents and homeowners; managed client acquisition, pricing strategy, contracts, invoicing, and delivery for listings up to $1.2M+

Van Chevrolet Buick GMC, Scottsdale, AZ — Dec 2023 – Sep 2024

New Car Salesperson

- Ranked among top performers during peak month, contributing $40K+ in revenue; closed one of the dealership's highest-grossing single deals at $22K in dealer gross profit
- Qualified buyers on budget and payment sensitivity, structured deals around financing options, and negotiated terms to maximize close rate and deal profitability

PROJECTS

J&J UCC Financial Case Competition (2nd Place) — Python DCF Optimizer — Apr 2026

- Built a Python-based DCF model simulating 180 decision combinations across a 10-year P&L to identify the NPV-maximizing strategy; validated to 0.000% error against the Excel baseline
- Owned financial modeling, sensitivity analysis, deck design, and content integration for a 20-minute presentation to a panel of J&J executives

Prysm — Residential Property Valuation Platform — pr-sym.com

- Designed and deployed a regression-based residential valuation platform at pr-sym.com; analyzes 25+ data points per comparable sale with multi-factor weighted comp scoring to produce confidence-graded valuations (A–E), market adjustments, AI-generated narratives, and PDF reports. Built using AI-assisted development; currently pre-launch.
